

Relationships with integrity are possible at every age!

The Legacy Institute has developed a comprehensive plan to put parents back in the driver's seat regarding **relationship** and sexuality education for their family. This biblical curriculum is called *Relationships With Integrity*.

### Parent Materials

**Step #1:** This **relationship roadmap** begins with *The Biblical Blueprint for Sexual Integrity*, a seven session DVD series specifically designed for **adults/parents**. The series provides a positive, inspiring, biblical framework for healthy relationships and an understanding of the male & female design. This series is guaranteed to enrich communication and understanding within the family. Schools or churches host the series.

**Step #2:** Parents receive their own copy of the *Relationship With Integrity Parent Guide* for grades K-12. This comprehensive guide written by experts highlights the key biblical truth of every lesson in *Relationships With Integrity* and gives practical advice to parents, that is age appropriate for their children. This invaluable guide gives parents principles they need to lead the most important discussions at home about relationships. The guide also includes manners and etiquette training, as well as the key foundations for teaching their son and daughter how to model respect.

### Student Materials

**Step #3:** The relationship roadmap gets in full gear with the *Relationships With Integrity* curriculum - the groundbreaking relationship lessons developed for students in grades K-12. There are 5-10 lessons in each grade, and the lessons are each taught by teachers and/or youth leaders. These trusted delegates facilitate the easy-to-use materials and **do not** assume the role of the parent, as the most intimate conversations and teaching are planned for home. Parents use their RWI resources and family values with their own children, while teachers/youth leaders create a positive peer experience using their correlate resources provided by RWI.

**Grades K-3:** These unique foundation lessons are beautifully woven through professional audio dramas. Student's imaginations are engaged as they listen to stories about a family in the town of Legacy, learning "heart lessons", as Grandpa Henry, the narrator, likes to call them. Each grade has five stories, and each story emphasizes the key biblical truth for that lesson. The learning is reinforced through original artwork coloring books, sign language, object lessons, original songs, crafts and more! This whole-person experience allows key biblical truths about God to "cement" in the precious young minds and hearts, creating a relationship foundation for the years to follow. Each unit is 5-10 lessons depending on the setting.

#### K- God Is Love:

Children will learn about God's love for them, and why they are created uniquely as a boy or girl to love others. Family is a central focus along with a first glimpse at how loving relationships should work even at a young age.

#### 1- God Is Life:

Children will learn about the power of life and the author and giver of life, God Himself! Through the stories and activities, students begin to "see" life around them in new and inspiring ways, and the value of all life becomes very real.

## 2- God Is Spirit:

Children will learn about God's Spirit and their body, soul and spirit. Students will learn that allowing God's Spirit to lead them is the key to walking by the Spirit. This reality is life-changing, even at a young age.

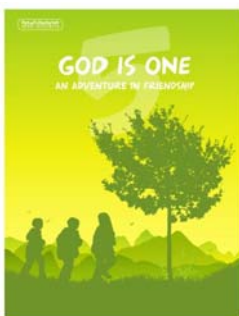

## 3- God Is Light:

Children will learn their choices impact both the Kingdom of Light and the kingdom of darkness, and they quickly realize the power they have when they walk in the light. This unit brings to "light" important foundations for future decisions.

**Grades 4-6:** These grades are important bridge years, helping students cross over to more understanding of relationships as they continue in their childhood journey. Each grade is very strategic in its approach, and all three are uniquely designed to include internal and external experiences, reminding students they are whole, integrated people. The lessons include elements such as: sign language, object lessons, games and crafts to reinforce the key biblical truths. Each unit is five to ten lessons depending on the setting.

## 4- God Is Father:

God's role as Father comes alive through the DVD presentation of *The Great King* by the amazing actor, David Shelton. This remarkable story is the centerpiece of this unit, and helps the students see the unique relationship between God the Father, His Son the Prince and all of His children. Family and adoption are honored in this unit, along with each family member.

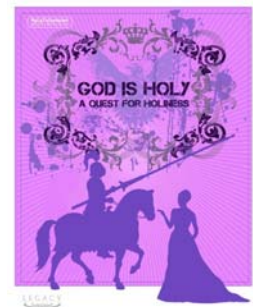

## 5- God Is One:

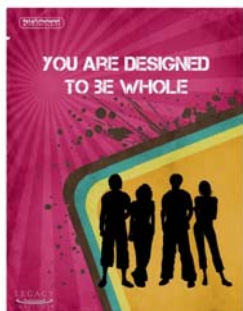

This unit emphasizes God as a union of persons. The unit sub-title is "An Adventure In Friendship", which focuses on unity, wholeness and being integrated people. The emphasis on healthy friendships helps students create patterns and principles for all relationships, as they grow older. The student's five aspects (physical, intellectual, emotional, spiritual and social) are introduced for the first time.

## 6- God Is Holy:

This unit transports students to Medieval Times through audio lessons from Sir Robert the Knight (played by Grant Goodeve), a special castle book, object lessons, crafts and more to bring to life the important truths about holiness. This unique approach invigorates the imagination of students and helps them want to be trained for sanctification. The unit ends with a special coronation ceremony marking a rite-of-passage event for both young royal warriors and princesses. Parents are also included in this special event.

**Grades 7<sup>th</sup>-8<sup>th</sup>:** At this age, many young teens need definition, clarity and a lot of encouragement. Every young teen is beginning the journey of identity, and these lessons help them answer key questions on that journey. Both of these units are DVD driven, with the video teacher doing the main teaching and the facilitating teacher leading the interaction in class and with small groups to personalize the material through discussion. A student workbook is included for each student, which reinforces learning and even includes doodle space. Jr. High age students still need to laugh, move and have fun! The object lessons and other activities give them a well-rounded experience, which helps them to see their uniqueness, but also their need for wholeness. Each grade's unit is five lessons.

**7- You Are Designed To Be Whole:** This unit introduces the concept of Sexual Integrity for the first time, using the five aspects of each person as the centerpiece. The unit begins by framing the issue of male and female uniqueness, and then highlights how to live with integrity physically, intellectually, emotionally, socially and spiritually. Students begin to understand their choices leave a ripple or a legacy, even at this early age. Many students are already making decisions about the opposite sex, and this unit helps them manage that process with integrity, while reminding them of the key role of their parents.

#### **8- You Are Designed To Be Life-Giving:**

This unit highlights God's passion for life, and His prescription written in to the male and female design. While parents will take the lead on the most personal information, these lessons create an important understanding of the power of the gift of life and fertility and the reality that each of us will leave a legacy. Along with practical information about the physical design, stories of life-giving people and their legacies are also introduced. This will inspire students to create a roadmap for successful decision making in their own lives, as they realize they, too can be life-giving right now!

### High school Foundation Series, Grades 9-12:

#### **You Are Designed For A Great Story!**

All high school students begin with this foundation series. This comprehensive and integrated unit frames the issue of relationships and sexuality from a biblical perspective then incorporates scientific data to strengthen the foundation. The 10-session DVD driven series is practical and incredibly positive. Students feel a sense of encouragement and empowerment as they begin to understand who they are as a young men and young women, not just what they should and should not "do". The relationship model for *Sexual Integrity* is taught and applied to student's lives, and the results are life-changing! Students receive a personal workbook for notes and small group discussions. Other object lessons and activities are encouraged to reinforce student learning and understanding. The sessions include:

- Session 1: God Designed You On Purpose, With A Divine Purpose
- Session 2: Male And Female By Design
- Session 3: Young Men Can Reflect God
- Session 4: Young Women Can Reflect God
- Session 5: Fertility: A Sacred Gift
- Session 6: Marriage: A Divine Idea
- Session 7: Marriage: A Divine Idea (Part 2)
- Session 8: A Tragic Moment In A Great Story
- Session 9: A Great Rescue: The Story Continues
- Session 10: Healthy Bonding: A Key To A Great Story

**High School Advanced Courses, Grades 10-12:** These three units are the second phase of high school relationship education. Once a student has gone through the high school foundation series, then they are ready to dig deeper on key issues. These courses are designed to get students thinking and then doing some of their own discovery. Each unit includes important facts and data, as well as a unique mix of resources and input from experts in several fields.

### **10- You Are Designed With The Power To Choose:**

This unit incorporates an original script for the students to act out to help them discover the truth about inalienable rights, life, abortion, etc. This gives students a unique opportunity to look at the power of choices and their consequences.

### **11- You Are Designed For Unity:**

This unit is about marriage and the key ingredients that build strong marriages such as communication, real intimacy and bonding. Marriage is sacred, and this unit explores its importance in society and also looks at counterfeits that sabotage marriage.

### **12- You Are Designed To Build God's Kingdom:**

This unit begins with a comprehensive look at Eugenics, then The Whole Person Theory by Dr. Onalee McGraw. Additional challenging issues such as abortion, stem cell research, homosexuality, population issues and more are also studied. Students will be ready to face the issues of today with confidence!
